**AUXINFO** will serve as the central location and common interface for the entire Auxiliary organization to gain real time access to **AUXDATA** reporting information. Through the cubes featured in **AUXINFO** any Auxiliarist can readily log on, view, manipulate, compile and print all kind of reports. The screen shots featured in this edition should serve as a familiarization tool, since the cubes are always being updated to better serve Auxiliary needs. For more information and guidance on **AUXINFO** log onto the Chief Director's site at [www.uscg.mil/hq/g-o/cgaux](http://www.uscg.mil/hq/g-o/cgaux). To access **AUXINFO** log on to [www.auxinfo.uscg.gov](http://www.auxinfo.uscg.gov) (no password required) and the screen below appear.

In the following screen shot I have successfully manipulated the cubes to represent Operational Hours for PACAREA, District 17, Division one and the corresponding three flotillas. The user can then further manipulate the data to retrieve a wealth of information regarding Members and Activities etc

One of the most useful features of this application is the toolbar above. From this toolbar users can export data to pie charts, graphs and PDF.
